

Kostiantyn Mironchyk

Senior Full Stack Developer

Abu Dhabi, UAE / Open to remote and onsite opportunities

LinkedIn: <https://www.linkedin.com/in/koc9n>

SUMMARY

Senior software engineer with 14 years of experience designing and operating Java-based enterprise systems and full-stack applications. Specialized in Spring Boot microservices, cloud infrastructure, and distributed systems, with hands-on experience across Angular, Node.js, AWS, Kubernetes, Kafka, and Terraform. Led cloud migration and platform modernization work at Allianz Technology while mentoring engineers and improving deployment and operational performance.

EXPERIENCE

Senior Full Stack Developer

Oct 2018 - Nov 2025

Allianz Technology

Bangkok, Thailand

- Engineered and maintained critical microservices for a roadside assistance platform using Java, Spring Boot, Node.js, and Angular.
- Spearheaded an AWS infrastructure migration using Docker, Kubernetes, and Terraform, reducing deployment time by 40%.
- Integrated real-time tracking with Kafka and RabbitMQ, increasing dispatch efficiency by 30%.
- Led code reviews and Agile ceremonies and mentored junior engineers, improving team velocity by 20%.

Stack: Java, Spring Boot, Node.js, Angular, AWS, Docker, Kubernetes, Terraform, Kafka, RabbitMQ

Earlier Java Developer Roles

Dec 2016 - Oct 2018

Mobile Technologies

Bangkok, Thailand

- Developed key components for a telecom management system using Java, Spring, Hibernate, and JSF.
- Improved application stability by resolving critical defects and delivering features with cross-functional teams.

Stack: Java, Spring, Hibernate, JSF

Freelance Backend Developer

Mar 2016 - Dec 2016

Independent

Phuket, Thailand

- Built REST APIs for a dating platform using Node.js, Express.js, and PostgreSQL.
- Designed and deployed secure, scalable backend services for a cryptocurrency wallet application.

Stack: Node.js, Express.js, PostgreSQL

Java Developer

2010 - 2016

AxiomSL, Accepic, Intexcs, Provectus IT, CHI Software, NIX Solutions, Avek

Ukraine

- Contributed throughout the software development lifecycle on enterprise software projects.
- Developed backend capabilities with Java, JSF, Hibernate, Oracle, and JBoss.
- Improved performance and resolved defects across mission-critical applications.

Stack: Java, JSF, Hibernate, Oracle, JBoss

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, Node.js, HTML, CSS

Backend: Spring Boot, Hibernate, Express.js, JSF, REST APIs, Microservices

Frontend: Angular

Cloud & DevOps: AWS, Docker, Kubernetes, Terraform, Helm, Jenkins, Git, CI/CD

Data: PostgreSQL, MySQL, MongoDB, Redis, Oracle

Messaging & Observability: Kafka, RabbitMQ, ELK Stack

Practices: TDD, Agile, Scrum, Mentoring, Code Review

EDUCATION

Bachelor's Degree in Computer Science

2006 - 2011

Kharkiv National University of Radio Electronics
